

New Zealand Scholarship Assessment Specifications

General Information

Scholarship Performance Standard	Biology
Mode of Assessment	Written examination
For Year	2009

Specific Information

Format of the assessment

The questions will require analysis of biological situations and the use of ecological and evolutionary principles to integrate biological knowledge and skills into an extended answer. Resource or stimulus material may be provided.

Content/Context details

The questions in the assessment activity/examination will be based around broad themes that cover the content areas specified in Explanatory Note 2 of the Scholarship Performance Standard.
